Carrier Aspiration

- To work in highly specialized endocrinology center with daily morning lectures, continuous flow of updated information in the daily clinical meetings, submitting academic lectures for many students. Interacting in multi-disciplinary approach in dealing with endocrine problems.
- To advance more in my beloved areas of interest: Thyrology and Female Reproductive Endocrinology.
- To be highly cited author in the endocrinology.
- To create endocrinology scores and questionnaires of high interest (which I am fond of).
- To pursue a carrier in Endocrinology and Diabetes with academic interest.
